

## Product Specification: Beech Wood Sawdust Brick

### I. Product description and composition:

The wood bricks are manufactured by compressing (300 atm maximum) beech wood sawdust, without any addition of chemicals or binders.

### II. Technical specifications:

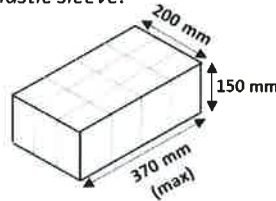

Shape:		RUF type, parallelepiped
Weight:		0,83 kg/piece (+/-10%)
Product size:		
Length	Width	Thickness
150 mm	60 mm	90 mm

### III. Packing method:

Wood bricks packed by 12 into a plastic package. The plastic packages are then stacked on pallets, each pallet containing 12 packages x 8 layers. Each pallet is packed in a thick plastic sleeve.

Package weight:	10 kg (+/- 5%)	
Package size:		
Length	Width	Thickness
370 mm (max)	200 mm	150 mm

Gross weight of the pallet:	975 kg	
Net weight of the pallet:	960 kg	
Pallet size:		
Length	Width	Height
1200 mm	800 mm	145 mm

### IV. Characteristics:

Humidity:	10-12%
Lower calorific value:	15,924 MJ/kg <sub>gr</sub>
Ash:	0.56%
Nitrogen:	0.12%
Chlorine:	<0.011%
Volumetric weight:	1.04 gr/cm <sup>3</sup>
Sulphur:	<0.011%
